ESTEE'S CAMPAIGN.

An Enthusiastic Meeting at Oakland.

OPPOSED TO THE FUNDING BILL.

He Regards It as a Mortgage Upon the Industries of the State.

SAN FRANCISCO, August 18.—M. M. Estee, Republican candidate for governor, spoke to an enthusiastic audience at Oakland tonight on political topics. He blamed the Democratic party for the financial depression and contrasted the prices now received for California products with those received while the Republicans were in power. He said that the President had made the government a personal instead of a general one and the Democratic party has become a Cleveland party. Mr. Estee pledged himself, if elected, to economy in the administration of state affairs and said that the promise of the Populists to run the state government on a tax of 25 cents on each $100 could not be done as the fixed expenses of the state exceeded the revenue such a tax would yield.

Speaking of the Central Pacific funding bill, Mr. Estee said it was a Democratic measure and referred to it as a most unjust and unpopular bill. The people of this state are opposed to it. I am opposed to it. It is a mortgage upon the industries of this state for fifty years to come. He referred to the time when he was a candidate for governor twelve years ago and he was called a railroad candidate, when in reality he was opposed by the railroad, which adopted these tactics to beat him. He doubted if this deception could again be repeated. He had not replied to those charges then and would not do so now. The people of California knew his life and his record.

SENATE PROCEEDINGS.

White Placed on the Finance Committee.

WASHINGTON, August 18.—The Senate has decided that there shall be no further legislation over which there is a contest at this session of congress, by adopting Murphy's resolution to that effect by a good majority.

The resolution appointing White of California a member of the finance committee met with no opposition and was agreed to unanimously.

Gray's resolution, instructing the committee on finance to report the free sugar bill immediately, with an amendment putting a "flat" duty upon sugar, did not fare so well, and went over without further action on account of lack of a quorum. Another resolution, offered by Lindsay, declaring that it was the sense of the senate that congress could not adjourn without striking out of the tariff bill the benefit it gives to the sugar trusts, which was amended by including "profit it gives the sugar trust," which was amended by including "whisky trust," and, as amended, went over under objection.

Railroad in the Polar Circle.

STOCKHOLM, August 18.—The new northern trunk line in Sweden has been completed. It was dedicated to King Oscar a few days ago and at the same time opened for public traffic. King Oscar made the speech of his life upon this occasion. The festivities surpassed anything seen in this part of the world at a similar event and will go down to posterity as an epoch in Sweden's history. The railroad just completed connects at Benden, near the Gulf of Bothia, with the northernmost railway in Sweden (and in the world), running from the seaport of Lulea up to the Gellivara iron ore mountain, forty-seven miles north of the Polar circle. This is a longer distance than from Berlin to Rome. The cost of this northern part of the Swedish railroad net has been about 350,000,000 crowns. This includes rolling stock.

Some Good Purses Offered.

SAN FRANCISCO, August 18.—The stake events for the coming meeting of the California jockey club was made public today. Thirty-seven stakes, aggregating $65,000 in value, has been prepared for the first ten weeks of the meeting. The star event of the meeting will be a guaranteed stake of $1,000 for the mile and a quarter handicap. There is also a second mile and a quarter handicap of the guaranteed value of $5000. The meeting will begin on October 27th and entries for the stakes and races will close October 25th. During the meeting $350,000 will be given in purses and stakes.

Will Sue Again.

SAN FRANCISCO, August 18.—Hattie Schenck, the buxom colored woman who recently lost her case against the estate of the late P. N. Mackay, is going to make another attempt. She claimed Mackay had married her and as his widow wanted a share of the $350,000 left by the capitalist. This time she will sue for a partial distribution of the estate for the benefit of the little mulatto girl, of which she alleges Mackay was the father.

The Markets.

SAN FRANCISCO, August 18.—Wheat—Quiet, steady; December, 96¼c; May, $1.04¾.

Barley — Easy; December, 97⅞c; May, 94c.

Corn—$1.37½.

Bran—$15 per ton.

Italians Deserting California.

SAN FRANCISCO, August 18.—The Italians are deserting California in large numbers. They find that it is difficult for them to obtain work here and many are returning to Italy. Others are going to the southern states, particularly Florida and Alabama.

Fire at Lemoore.

LEMOORE, August 18.—Last night a fire was discovered in Moore's tin shop. It was extinguished with trifling loss, but two hours later broke out again. Eight buildings were destroyed. Loss $20,000, insurance $10,000.

The Tug of War.

SAN FRANCISCO, August 19.—Russia beat Scotland in 11 minutes and 20 seconds. Denmark beat America in 5 minutes. Sweden beat Canada by default.

Did Not Race.

COWES, England, August 18.—The Vigilant did not race today as she lost her centerboard at the start.

ENGLISH COMMENTS.

A Tirade Against the Vigilant as a Racer.

LONDON, August 18.—Field today gives prominence to a violent letter against the Vigilant, which is said to be a true reflection of English comments bearing on all sides, but which have not appeared in print. The writer of the letter says that international courtesy has been overdone, and especially in his view, the courtesy has not been reciprocated. The letter recounts certain alleged violations by the Vigilant of the British yacht racing association rules, to wooden bulkheads, etc., and says that the Vigilant was not measured "until British patience was exhausted." The writer asks if the Vigilant is to be allowed to break every rule with an "empty shell for a hull, which enables her to compete with racing yachts and with a crew of Norsemen and English sailors." In conclusion the Vigilant's critic remarks that Britishers boast in their national pride of a "British ship, not machine, with British canvas and managed by Britons."

LONDON, August 18.—A dispatch from Cowes says that it is generally believed that the Vigilant will not race again this season in English waters.

FROM JAPAN.

ADMIRAL SKERRETT ARRIVES FROM YOKOHAMA.

He Says That So far Japan Has Gained a Decided Advantage.

SAN FRANCISCO, August 18.—Among the passengers on the steamer China, which arrived from Yokohama today, were Admiral Skerrett and S. Kurino, the new Japanese minister to the United States. Neither of them had much to say about the war between China and Japan. Admiral Skerrett said that so far Japan had gained a decided advantage, but he would not hand an opinion as to the result of the conflict. Japan had shown good strategy in the way she occupied Seoul and its seaport, Chemulpo. The only way China can get troops into Corea is to march them down the peninsula from Manchuria. The Admiral did not witness the sinking of the transport Kowshing, but heard the firing twenty miles away.

Mr. Kurino would say nothing officially. He said that when he left Tokio the war had scarcely begun and Tokio was so far away from the seat of war that he could give no authentic information. When he left the Japanese were planning to protect the port of Yokohama with torpedoes, but he thought the plan would not be carried out.

Prosecuting Swindlers.

NEW YORK, August 18.—The United States Government is proceeding against members of the great steel and manufacturing firm known as Benjamin Atha and Illingworth Company of Newark, N. J. The charge is conspiracy to defraud the government by furnishing castings for the navy department that contained blow holes which were plugged. President John Illingworth and Secretary G. Denman of the big steel company were arrested today and released on bail.

PROGRESSIVE REEDLEY.

Prohibition Speech—Hop Crop and Early Raisins.

EDITOR REPUBLICAN:—Most grain farmers in this vicinity have done harvesting, and found their crops fully up to, if not exceeding their expectations.

Our raisin and fig crops are about ready for gathering. In fact W. D. Noble of Noble Bros., who was in Reedly today making arrangements for operating their packing house, says raisins are more advanced here than in any other part of this county, and that he expects to send the first car load from Reedley.

Rev. Frambes has a large tent awaiting a favorable opportunity for holding a series of revival meetings. Two weeks ago the Ladies' Home Missionaries here obtained permission to use the tent for a social and tea to be given exclusively to themselves and their better halves. A very enjoyable time was reported. It was used again last Tuesday evening by the Y P.C.E. society, who extended a cordial invitation to everybody, and it being a fine moolight night, enjoyment reigned supreme.

Reedley furnished its quota of summer tourists on Pine Ridge, the following families being camped within its delightful, umbrageous retreat—: P. Lyon, wife and children, Mrs. S. F. Earl and sister, together with Mrs. Weaver and daughter, and Mrs. Deason and daughter.

W. W. Green and family have just returned from a short sojourn at Trimmers springs, where A. F. Simpson and family still remain. At S. D. England's tray mill, not far from Sequoia mills, are some of the members of W. R. and Pope Neil's families, absorbing the ozone of high altitudes.

The first gun of the Prohibition campaign was fired in Reedley last night by Rev. J. H. Collins of Fresno, as the home made posters had it, and it proved to be a very rapid firing Hotchkiss indeed. The way the grape and canister in the shape of prohibition facts and assertions were fired at the audience, interspersed with the well pointed anecdotes and witty dialectations from the brilliant and versatile Collins, was a thing to think about, as he intended it should be. He took occasion, among other hard shots at the Populists to accuse would-be District Attorney Cureton of "either being viciously ignorant or willfully lying," when in his speech here a week or two ago, he asserted that the People's Party was the first to advocate the government control of railways when he knew or ought to have known that the Prohibitionists had a plank in their platform for the last sixteen years demanding government control of both railroads and telegraph lines. He also dished up again that old mess about the Republican state convention having inserted a plank against prohibitory law. He said the San Francisco Chronicle denied it and Mr. Estee denied it, but a friend of his had telegraphed to Dan Burns and he replied that the resolution was passed by the convention.

Another star must be added to Reedley's industrial flag since an industry new to the county has been inaugurated here on a large scale. It has long been supposed that hops would not prove a profitable crop in this valley, but it has remained for the Carmelita Vineyard Company to dispel the illusion. It will require thirty or forty men about six weeks to gather their crop on their magnificent place north of town, which is under the able management of S. F. Earl. FIRST GUN.

THE DENVER WHEELMEN

Zeigler Again Distinguishes Himself.

HE LEADS IN THREE RACES.

A Strong Candidate for Zimmerman's Place as Champion of America.

DENVER, Col., August 18.—The closing day's racing of the wheelmen tournament was witnessed by the largest crowd during the meet. Zeigler, the "Little Demon" from San Jose, Cal., was the hero of the day.

The quarter-mile national championship had eight starters. Zeigler kept up his championship work of yesterday by leading from the start and finishing first by half a wheel.

Zeigler again distinguished himself in the 2.20 class race for class B. He and Bole of Denver, who got second place, received an ovation at the close.

The one mile national championship, which was the big race of the day, brought the Californian to the front once more. Having already won two races today in fast company, many thought he might not hold out. After the race it was conceded that he is a strong candidate for Zimmerman's place as champion of America. The pacemakers set a hot pace from the start. Sanger led at the third and two-thirds, with Murphy of Brooklyn, Zeigler, Johnson and others well up. Zeigler made a magnificent spurt on the last lap and gained a lead of four wheels. At the head of the homestretch Murphy moved up alongside of Sanger. They could not catch the "Little Demon, however, and he won by a wheel amidst the wildest enthusiasm. G. S. Johnson was fourth.

The two-thirds of a mile, open, class B., E. C. Baldwin of Buffalo won; C. S. Wells of San Francisco, second; L. D. Cabanne of St. Louis, third. Time, 1.44 2-5.

One mile handicap, class A, A. Gardnor of Chicago won, B. B. Bird of St. Paul second, L. A. Callahan of Buffalo third. Time, 2.16 1-5.

Quarter of a mile, national championship, Otto Ziegler of San Jose, Cal., won, W. W. Taxis of Philadelphia second, Raymond McDonald of New York third. Time, .30 3 5.

One- half mile, open, class B, W. R. Sanger won, C. S. Wells second, F. J. Titus third. Time, 1.11 2-5.

Quarter of a mile, open, class A, A. Gardner won, B. B. Bird second, C. W. Davis third. Time, 31.

One mile, 2.20 class, class B, Otto Zeigler of San Jose, Cal., won, O. E. Boles of Denver, second, C. R. Coulter of Toledo third. Time, 2.24 4-5.

One mile, national championship, Otto Zeigler of San San Jose, Cal., won, C. M. Murphy of Brooklyn second, W. C. Sanger third. Time, 2.12 1-5.

Two-mile, open, class A.—A. Gardner won, B. Bird second, M. Black of Fort Wayne third. Time, 4.59 3-5.

Without Cleveland's Signature.

WASHINGTON, August 18.—The river and harbor bill, carrying $11,479,780, became a law at midnight without President Cleveland's signature, the legal limit of ten days having expired in which he could sign it or veto it.

LADIES' RELIEF CORPS.

An Enjoyable Evening Spent on Elm Avenue.

On Wednesday evening, August 15th, the ladies of the Relief Corps and a few invited friends went out for a hay ride, and brought up at the residence of John H. Sewell on Elm avenue, where everything had been arranged for their reception. The front yard was lit up with Chinese lanterns, and a large transparency was on the front porch, bearing the following: "Welcome G.A.R." The evening was spent in dancing, card playing and other amusements, after which all were invited to the back yard where tables had been loaded with all the delicacies of the season.

The night was just right for such a gathering and all present expressed themselves as having had a very enjoyable time. Among those present were the following:

William G. Sewell and wife, J. W. Rogers and wife, A. H. Nutt and wife, George Lawson and wife, James E. Faber and wife, J. M. Statham and wife, Frank Hoppock and wife, H. Morford and wife, Mr. and Mrs. Greenfield, Mrs L. D. Hoppock, Mrs. Lillie Reynolds, Mrs. J. C. Herrington, Mrs. J. R. Jackson, Mrs. W. G. Torley, Mrs. F. Banta, Mrs. H. Ford, Mrs. D. Shafer, Mrs. M. Stryker, Mrs. Cordelia Keller, Mrs. "Auntie" Harris, Miss Ray White, Miss Dollie Banta, Miss Irene White, Miss Plate, Miss Speak, Miss Corness, John H. Sewell, William Reed, George Reeves, A. H. Statham, Jr., and Uncle Joseph Sweet.

Keyser Acquitted.

Andrew Keyser was yesterday acquitted in Judge Crichton's court on the charge of assaulting Carl Crow, a son of Poundmaster Crow. The boy's story was that Keyser did not like him on account of previous trouble over a horse of Keyser's which had been put in the pound, and that when Keyser met the boy in the country, in company with other boys, he undertook to whip him, and the boy saved himself by flight. The story told by Keyser was different. He said that the Crow boy, in company with others, was in the habit of going swimming in the canal, where they put extra boards in the drop, and by damming the water up, caused it to break over the banks, where it had done much damage. They went out again to go swimming and were putting the boards in the drop when Keyser appeared. He come to the conclusion that an ounce of prevention was better than a pound of cure, so he drove the boys off. For this he was arrested.

SAW HELL AND HEAVEN.

Strange Story of a Woman Who Dies for a Few Days.

A dispatch from Knoxville, Tennessee, gives a peculiar piece of news, if true. Mrs. Frank Emert, wife of a Seville county farmer, after suffering from a fever for some days, died on Monday, to all appearances, and was laid out for burial. Just before starting to the grave yesterday she gave faint evidences of life and prompt medical attention brought her to consciousness. Within a few hours she rose and insisted on walking about.

She declared that she had been perfectly cured in the "Great Beyond," and told the most wonderful stories of both heaven and hell, and said she met in one or the other of these places nearly every dead person she had ever known. She told where the departed ones were located, and, as most of them, according to her story, are in the less desirable place, much grief abounds in many families. Her detailed descriptions of the joys of the upper and the agonies of the lower world have caused great religious excitement, and her sister has gone violently insane.

AN EXPLOSION.

FOUR POWDER HOUSES BLOWN TO PIECES.

A Woman and Two Children Killed. Much Damage to Property.

FORT SMITH, Ark., August 18.—Tonight at 8 o'clock the four powder houses of the Spear Hardware Company, located two miles from here on the Poteau river, exploded. The flash was seen several minutes before the report of the concussion was felt. The powder houses are a total wreck. Near by, the home of Mrs. Cook was blown to pieces. Mrs. Cook, her daughter and an infant, were hurled into eternity. Mrs. Cook was cut nearly in two. The powder houses contained twelve pounds of dynamite and 300 kegs of powder. The shock was felt twenty miles away.

In Fort Smith thousands of dollars' worth of property was destroyed. The opera house, Boston store, Ariade, J. J. Little, Vaughan & Co., hardware, Fagan, Burt and the Western Union buildings were badly damaged, while along Sixth street and Garison avenue are many wrecks. No explanation has been found for the explosion. It could not have been an accident, and many rumors are flying around. One is to the effect that the remnant of the Dalton gang is about to rob a bank here.

WEST PARK HAPPENINGS.

Personal Mention and Pleasant Social Gatherings.

Last Sunday evening as Mrs. Farrow and her daughter Miss Emma were going to attend the Good Templar lodge, their team took fright and ran away, throwing them both out. Fortunately they escaped with nothing more than a severe shaking up and a few bruises.

F. L. Epperson and Arthur Hudson have gone to the mountains for a few day.

H. E. Burleigh and family returned from Pine Ridge a few days ago.

R. L. Eaton and Alexander Turnbull returned from the mountains this week.

Mr. Curtis and his son Edward have gone to Pine Ridge for a short time.

R. B. Daniels started on the 18th for Pine Ridge to bring back his family, who have been rusticating at the dam for several weeks past. They will return next Wednesday.

There is a certain young man in West Park who is evidently making preparations to have a good time in the near future. He has purchased a new buggy. He is also determined to learn to dance as soon as possible. What does it mean?

The West Park dancing school is now an assured fact. The class will have meetings twice a week if possible. The boys are determined to learn dancing.

The Haymakers held a meeting in the school house last Wednesday evening for the purpose of initiating several persons who had applied for admission to the club. After the business of the evening was over dancing was indulged in for a short time.

The church members held their third social at the residence of J. J. Bowen on Thursday evening. There were a large number present. The young folks enjoyed themselves playing games and croquet till about 11 o'clock, when all were summoned to partake of a plentiful supply of cake and coffee. These 10 cent socials are a great success in West Park, financially and otherwise.

Invitations are out for the ball to be given by the Haymakers' Social Union next Wednesday evening. The club have spared no pains to make the event one long to be remembered, and from present indications it will be as successful as the most sanguine anticipate. Music will be furnished by the Imperitrice orchestra, which will in future play for all the union balls. RAMBLER.

The readers of the esteemed Expositor are still anxious to know what it thinks about the Reilly funding bill.

IN nominating their best men for office the Republicans of Fresno county have made the way easy for victory in November.

WHEN the Russian government gets hard up it is fixed to do business with its uncle with a nicer little stock of state jewels valued at $11,000,000.

THE necessity for a high "revenue" tariff on sugar is easily explained by the loss of revenue in putting diamonds and other necessities of the plain people on the free list. The poor man must have cheap diamonds, even if he does have to pay a higher price for sugar.

MR. ESTEE evidently does not place much faith in political platforms, judging by the way he is hooting it on some solid planks of his own production. Estee is about right, too. Four-fifths of the platforms turned out by political conventions are pure buncombe. The people care more for the individual views of a candidate than they do for his party platform.

JIM BUDD appears to be the only person actually seeking the Democratic nomination for governor. It is a big come down, of course, from Judge Temple to Jim Budd, but the result will not be so very different so far as votes are concerned. The Judge is an intellectual refrigerator, and about the weakest point in Jim's record in a hard-times campaign would be his reputation for wearing $25 silk nightshirts. The Democrats would stand about as good a show to elect Budd as anybody else.

A POLITICAL party without a record has a certain amount of negative advantage over a party which has submitted its principles to the test of experience, but thoughtful men take that fact into consideration when weighing promises and listening to criticism. The Populists come very nearly being a party without a record, but they have just enough of it to serve as a very forcible reminder of what might be expected from Populist rule. The conventions of that party are not pointing with pride to Kansas and Colorado, but the people, nevertheless, have not failed to observe the quality of government enjoyed in those states during the past two years.

REFERRING to the silver question in its relation to the indorsement of President Cleveland, the Stockton Mail says: "Yet the Democracy of California in convention assembled will just as likely as not ignore this, the greatest of all public questions, out of deference to the supposed feelings or wishes of the President, who believes that the salvation of this country depends upon the continued prosperity of the money-dealers of New York, Boston and Philadelphia. An indorsement of the administration could not appropriately go along with a resolution for the free and unlimited coinage of silver, or vice versa, the administration being dead set against silver. But if the convention should turn its back upon the people and its face to Washington, it might as well also prepare to look to Washington for consolation after the votes are counted in November." The Mail is right in its forecast of what the Democratic state convention is likely to do. It is more than likely to indorse the administration, notwithstanding the fact that not one voter out of ten in the party is willing to subscribe to that sentiment. The federal machine is strong and will be thoroughly organized to carry its point. It is suicidal policy, but there is nothing new in the way of foolish things which may be done by political conventions.

THE Spanish correspondent of the California Fruit Grower, writing from Valencia, under date of July 18th, furnishes some facts of interest to raisin growers. He says:

The next crop of Valencia raisins is expected to reach 30,000 tons (of 2240 pounds each) and it is expected to be of a very fine quality, if the weather does not interfere to its detriment. This shows what we told you before, viz: It shows no large increase, for had there been no uprooting of vines, we might have expected this year a turn out of 1,000,000 hundredweight, but as given, its extent is really an abundant crop.

Our lands are better cultivated than those in California, and on an average produce more, while labor here is much cheaper. Three hundredweights of grapes produce one hundredweight of cured raisins on an average. The cost to farmers of curing 112 pounds of raisins is about 30 cents, American money.

For the last two years farmers have obtained $3 per hundredweight of raisins, on the average, and this price they require as a minimum to work their lands. Packing off-stalk here costs about 40 cents per hundredweight, or four boxes, and layers with nice gold lace chromos, about 70 cents per hundredweight, or four boxes; as lithographic productions are very cheap in Spain, this being an artistic country, and labor also is cheap in this industry. Shipping at Denia costs 5 cents per hundredweight, or four boxes, and freight to New York is 25 shillings and 10 per cent per ton of eighty boxes on an average.

As regards competition with California, it is very difficult now, but as time goes on we think it will be more easy for us to compete, as the time will come when you will have to manure the lands as highly as we do.

The facts set forth in the above show one thing conclusively, and that is that even with the advantage of new and fertile soil, the raisin growers of California require a duty equaling at least one-half of the cost of production, in order to protect them from an unequal competition with the Spanish producer. The cost of production in Spain, including better farming and better packing, is scarcely equal to one-half the cost in this country, while the difference in the cost of transportation is also an important item in the foreigner's favor. The perfectly reasonable duty of $2\frac{1}{2}$ cents per pound must be restored in justice to the home industry. A duty of $1\frac{1}{2}$ cents is probably sufficient on a cheap grade of goods like the Zante product, but the more expensive Spanish product, requiring the expenditure of much more labor in preparation for market, should carry the higher duty of $2\frac{1}{2}$ cents. There is no legitimate argument to advance against it, and it is plainly required to put the home producer on an equal footing with his foreign competitor.

APPARENTLY President Cleveland is preparing to avoid the responsibility of action upon the tariff bill. He has gone to Buzzards Bay, where his family is, and great pains have been taken to have it announced that he is ill with a malarial attack. We should think that the passage of the trust-tariff bill would make him sick; but we suspect that this illness is of the same sort that a once prominent lawyer in San Francisco used to be afflicted with when he could not otherwise get a continuance in a case which he was not ready to try. We shall probably next hear that the President is too much indisposed to attend to any public business, and that the tariff bill has thus become a law by lapse of time, without his signature.

PROCLAMATION!

STATE OF CALIFORNIA,
EXECUTIVE DEPARTMENT,
SACRAMENTO, AUGUST 1, 1894.

Whereas, The Legislature of the State of California, at its thirtieth session, beginning on the second day of January, A. D. 1893, two-thirds of all the members elected to each of the houses of said Legislature voting in favor thereof, proposed the following described amendments to the Constitution of the State of California, to-wit:

AMENDMENT NUMBER ONE.

ASSEMBLY CONSTITUTIONAL AMENDMENT NO. 8.

A resolution to propose to the people of the State of California an amendment to the Constitution of the State, amending section one of article two thereof, relative to the right of suffrage.

Section 1. Every native male citizen of the United States, every male person who shall have acquired the rights of citizenship under or by virtue of the Treaty of Queretaro, and every male naturalized citizen thereof, who shall have become such ninety days prior to any election, of the age of twenty-one years, who shall have been resident of the State one year next preceding the election, and of the county in which he claims his vote ninety days, and in the election precinct thirty days, shall be entitled to vote at all elections which are now or may hereafter be authorized by law; provided, no native of China, no idiot, no insane person, no person convicted of any infamous crime, no person hereafter convicted of the embezzlement or misappropriation of public money, and no person who shall not be able to read the Constitution in the English language and write his name, shall ever exercise the privileges of an elector in this State; provided, that the provisions of this amendment relative to an educational qualification shall not apply to any person prevented by a physical disability from complying with its requisitions; nor to any person who now has the right to vote; nor to any person who shall be sixty years of age and upwards at the time this amendment shall take effect.

AMENDMENT NUMBER TWO.

SENATE CONSTITUTIONAL AMENDMENT NO. 11.

A resolution proposing to the people of the State of California an amendment to section three of article eleven of the Constitution of the State of California, relating to the formation of new counties.

Section 3. The Legislature, by general and uniform laws, may provide for the formation of new counties; provided, however, that no new county shall be established which shall reduce any county to a population of less than eight thousand; nor shall a new county be formed containing a less population than five thousand; nor shall any line thereof pass within five miles of the county seat of any county proposed to be divided. Every county which shall be enlarged or created from territory taken from any other county or counties, shall be liable for a just proportion of the existing debts and liabilities of the county or counties from which such territory shall be taken.

AMENDMENT NUMBER THREE.

ASSEMBLY CONSTITUTIONAL AMENDMENT NO. 7.

A resolution proposing an amendment to the Constitution of the State of California, by adding a new section to article thirteen of the said Constitution, to be numbered section twelve and three-fourths (12¾), relating to revenue and taxation.

Section 12¾. Fruit and nut bearing trees under the age of four years from the time of planting in orchard form, and grape vines under the age of three years from the time of planting in vineyard form, shall be exempt from taxation, and nothing in this article shall be construed as subjecting such trees and grape vines to taxation.

AMENDMENT NUMBER FOUR.

ASSEMBLY CONSTITUTIONAL AMENDMENT NO. 12.

A resolution proposing to the people of the State of California an amendment to section seventeen, article one, of the Constitution of the State of California.

Section 17. Foreigners of the white race, or of African descent, eligible to become citizens of the United States under the naturalization laws thereof, while bona fide residents of this State, shall have the same rights in respect to the acquisition, possession, enjoyment, transmission, and inheritance of all property, other than real estate, as native born citizens; provided, that such aliens owning real estate at the time of the adoption of this amendment may remain such owners; and provided further, that the Legislature may, by statute, provide for the disposition of real estate which shall hereafter be acquired by such aliens by descent or devise.

AMENDMENT NUMBER FIVE.

SENATE CONSTITUTIONAL AMENDMENT NO. 17.

A resolution proposing to the people of the State of California an amendment to section seven, article eleven, of the Constitution of the State of California.

Section 7. EVOLUTION ON WHEELS

The Bicycle Fad is Just Eighty Years Old.

LOCAL DEVOTEES OF THE WHEEL

A Sketch of the Bicycle Service Between Fresno and the City During the Strike.

The man who speeds through the country on a modern bicycle at a rate of twenty miles an hour will be very apt to smile at the accompanying picture, which represents the bicycle as it was run on the streets of the national capital in 1827, when John Adams was President of the United States.

The first question asked by the average reader would be, "Where are the treadles?" Then the reader would be very apt to take a second glance and say, "Why, the man appears to be walking on the ground like a child on a hobby horse!"

That is just exactly what the people who walked on bicycles did in those days of 1827. The machines were called "velocipedes" then, and were so named up to and after the days of the civil war, when the American people began to catch on to the improvements which made the velocipede a useful machine instead of a mere toy.

The velocipede of 1827 was an imported idea, so far as the United States are concerned. As a matter of fact, the first velocipede was made in France in 1815, just after Waterloo, when an era of peace that lasted forty years, gave a great impulse to industrial invention in Europe.

Though the picture here represented, that of a fine old gentleman dressed in the costumes of our grandfathers, and paddling along between the two wheels like a duck on the bank of a mud pond, may well seem ludicrous to the present generation, the probability is that the most elaborate modern pneumatic-tired bicycle will look equally absurd to the coming race of 1970, and it is more than probable that our great grand-children will laugh outright at the crooked figures of our bicycle youths as they appear when "broken on the wheel" today.

Speaking of Washington, D. C., as it was in 1827, Ben Perley Poore says: The foreign diplomats were recognized as leaders in Washington society, and one of the secretaries of legation created a sensation by appearing on Pennsylvania avenue mounted on a velocipede imported from London.

These machines had two heavy wooden wheels of equal diameter, one behind the other, and joined together by a longitudenal bar on which the riders' seat was fixed. The mode of propulsion was by pushing the feet against the ground. The maximum speed attainable on the level, by a great

THE VELOCIPEDE OF 1827—(From a Contemporary Print).

exertion, was 5½ miles an hour, but only for short distances.

The contrivance soon dropped out of popularity, and it was not till 1863 that Michaud of Paris conceived the idea of making the front wheel very large and the hind wheel very small. At this time the public mind had realized the fact that if treadles were applied to the axle of the fore wheel the weight of the rider would keep it on the track, and the machine would go ahead. On this principle both bicycles and tricycles were running in 1867 and 1868, but those who remember the contrivances will agree that one hour's ride on either of them would take more out of a man than a day's work on a modern wheel. They weighed nearly a hundred pounds, and as the tires were solid, they jolted fearfully over the roads. The name bone-shakers, which will be painfully recalled by the bicyclists of 1893 will speak volumes for what those machines were.

Michaud's improvement was quickly followed by two others. The heavy wooden wheels were discarded and machines of steel and iron substituted. The Spider principle, by which the spokes were increased in number, but greatly reduced in weight, was another big improvement. As to the difference in size between the wheels, in the Michaud machines, it was favorable to speed but also favorable to "headers," whenever the rider came to an abrupt stop or leaned too far forward in going down hill. These "headers" were usually contemplated as a painful initiation into the mysteries and joys of the "bike," for very few tyros escaped the penalty, and even the veterans took a header occasionally, by some mischance, or in a moment of thoughtfulness. The machine men saw that these headers were dangerous and discouraging, and so the modern safety bicycle was evolved, a return in one respect (that of the equal wheels) to the velocipede of 1827.

Today the bicycle reigns supreme in Fresno. A horse requires a stable and feed and constant attention; the "bike" can be stored in its owner's bedroom, and a little oiling is the only attention it requires. It is no difficult matter for scores of our Fresno bicycle experts to run clean away from a fast trotting horse, and almost any bicyclist of moderate skill and strength can tire out a horse in a long day's journey.

The fact that a horse presents a large target, and is easily crippled by a single shot, naturally drew the attention of modern military men to the fact that a bicycle presents precisely the opposite characteristics, and hence the modern European armies have a regular bicycle corps of scouts and couriers attached to them.

The late strike developed another and excellent use for the bicycle. It is only necessary to refer to the matter briefly, as the fact are fresh in the memory of the people of Fresno county. Arthur C. Banta, the popular local agent of a bicycle company, broke the mail blockade between this city and San Francisco, by operating a bicycle service of mail and small parcels, much on the plan of the "pony express" of the early days of California. He estimated that the distance between the two cities, divided into relays, could be covered in eighteen hours. Circulars were freely distributed in the county, announcing that the route would be by White's Bridge, Pacheco Pass, Gilroy and San Jose. The receipt of letters commenced on Saturday, July 7th, and offices were opened at Selma and Fowler, to which points a bicycle messenger ran daily. The first messenger from Fresno to San Francisco started at 5 a. m. on Sunday, July 8th, and the letters reached San Francisco at 8.45 a. m. of the next day, having been delayed by the breaking of an inner tube near Gilroy. The messenger at that point had to walk six miles and this caused delay. The return parcel was rushed through in time to reach Fresno at 8 a. m. on Tuesday, the men riding all night. Their names and routes were as follows: B. J. Trent of Fresno, from this city to the twenty-mile house; H. S. Granghin of Sanger, from the twenty-mile house to Firebaugh; R. O. Puryear of Fresno, from Firebaugh to Los Banos; Arthur W. Drummond from Los Banos to the foot of the mountain near the San Luis ranch; W. B. Atwater of Fresno from the point just named to Bell's station; Joseph M. Smith of Selma from Bell's station to Madrono; George Colquhoun of Fresno from Madrono to Menlo Park and U. S. Shaffer from Menlo Park to San Francisco. The arrangement permitted of one mail a day each way, and while it lasted saved numerous heavy losses and law suits. The service was withdrawn on July 11th, as a result of the raising of the blockade.

During the four days of its existence 880 letters were carried at a cost of $134.10, the receipts being $108.80, so that Mr. Banta was out $25.30 on a scheme which saved local firms many thousands of dollars. Mr. Banta has not, however, been entirely unrewarded for his plan. He has received letters from all parts of the United States, and the diamond-shaped stamp affixed to the letters has been in brisk demand from stamp collectors, or philatelists, as they delight to be called. The stamps were sold for 25 cents and the envelopes for 30 cents. The stamps already command a high premium, being worth $5, while the used envelopes are estimated to be worth anywhere from $5 to $10 each.

There are many reasons why Fresno county has such a large number of wheelmen in its limits. The flatness of the valley, the excellence of the roads, and the smoothness of the streets of Fresno city offer every inducement to men and women, young and old, to take their pleasure on wheels. It is estimated that there are over 600 cyclists in the city alone.

Among them are three ministers of religion, Rev. D. H. Gillan of the Methodist church, Rev. W. H. Martin of the Christian church, and Rev. Hoernecke of the German Lutheran church. Among others whose names are household words, the following are ardent patrons of the bicycle: Judge M. K. Harris, Walter D. Tupper, Truman G. Hart, W. H. Ingalls, A. H. Neeley, Andy Seaman, G. W. Gilbert, R. G. Barton, and many more.

Major W. B. Dennett began riding a bicycle a year ago, but give up at the second lesson. The curbstone critics aver that since then that wheel has never been able to stand alone.

When H. Graff purchased his bicycle he had a saddle post made to order on account of his unusual height. He is never bothered by parties wanting to borrow his wheel because any ordinary sized man would be compelled to use a step ladder in mounting and dismounting.

There are probably fifty women who use the bicycle more or less regularly in Fresno, but not one of them has yet ventured in divided skirts or "bloomers."

It has been suggested that if we are to have no fair or races this year a grand bicycle contest would be a good attraction in the fall, and that by way of testing public interest in the matter a preliminary 10-mile dash might be arranged between the welter weights Major Simpson and Dr. St. George Hopkins, with "Bach" on a bone shaker as referee.

FIRE IN LEMOORE.

The Quick Work of a Destroying Blaze.

About two hours before day break yesterday morning a fire occurred in Lemoore, which was not checked till it had consumed eleven places of business. The names of all of them could not be learned. The telephone office was among the burned buildings and messages came by way of Hanford.

It is not known how the fire started, further than that it had its origin in a tin shop, and from there spread till it had consumed the postoffice, the telephone office, J. H. Rout's drug store, Mrs Paulsell's lodging house, Nicholas Skelly's hotel, the old engine house, a hardware store, a gunsmith's shop, an ice cream parlor and a candy store. The losses and insurance could not be ascertained.

The fire department did its best to check the fire, but it could do little or nothing, and the flames went upon their way till they had consumed every building in the block except the bank.

Bing Hung Held.

Judge Crichton yesterday held Bing Hung to appear for trial in the superior court, charged with trying to rob a Chinese actor in the theater in Chinatown. Bail was fixed at $1500. It is not probable, however, that Bing Hung will come to trial in this court, for he is wanted in Los Angeles by the federal authorities for deportation. It has turned out that he is an ex-convict, and as such, he will be sent back to China. A Deputy United States Marshal will take him to Los Angeles early next week. The crime for which he was sent to the penitentiary was kidnapping.

THE TRABER INCIDENT.

Why He Was Called Down by the West Park Alliance.

EDITOR REPUBLICAN:—My attention has been called to a statement in your issue of Friday morning, in which your correspondent says: "The Populists somehow fail to understand why Traber was not allowed to speak on politics at the West Park Alliance. * * * The refusal of the Alliance to hear him had a discouraging effect."

Now, this is a perversion of the facts. Our Alliance had decided to hold an open meeting to which all in the community without regard to politics should be invited and at which meeting there should be a fair presentation of the principles of the Alliance and its objects as an organization entirely independent of political parties, and following, a discussion of the initiative and referendum from the standpoints of each of the political parties.

Brother Traber, inadvertently, as speakers will, made a alarming remark about the Republicans and was called to order by a brother and was requested to confine his remarks to the principles under discussion. It was not a meeting for the benefit of candidates of either party and it was distinctly understood from the first that politics should be barred out and principles only discussed.

The Farmers Alliance could not hold a meeting in the interest of any political party without acting contrary to the spirit of its constitution. It is so common to hear the Alliance confounded with the Peoples' Party that it is well right now to call the attention of politicians and the public in general to the fact that no party owns the Farmers Alliance. As an individual member, believing in the principles of the Peoples' Party, I claim the privilege of voting for the candidates of that party so far as I consistently can and no farther, and that privilege belongs to every member of the Alliance with regard to any political party. A. P. JOHNAS,
President West Park Alliance.

PRICES FOR RAISINS.

Secretary J. M. Collier Explains the Scale.

There has been much misunderstanding and doubt regarding the scale of prices fixed by the association for raisins. It was not clearly understood whether the prices were for raisins in the sweat box, delivered at the packing house, or for raisins packed for shipment.

J. M. Collier, secretary of the association, was seen on the subject and he clears the matter up by explaining that the prices quoted are for raisins after they are packed, either in boxes or sacks. For example, if a man has twenty tons of raisins, he packs them and takes them to the packing house, and there receives his price. Or, if he does not pack them himself, takes them to a packer, has them packed, then receives the schedule price. He must pay for the packing himself.

The Combine's Prices.

At the request of a number of correspondents the following price list for raisins, as fixed by the State of California Growers' and Packers' Company, (the new combine) is reprinted. Four-crown loose, 4½ cents per pound; 3-crown, 3½; 2-crown, 3; sedless, 3; dry grapes, 2½; 3-crown layers, $1.35 per box; 4-crown fancy clusters, $1.60 per box; 5-crown Delesa clusters, $2; 6-crown Imperial, $3; Sultanas, 4 cents per pound.

Board of Equalization.

The city board of equalization yesterday heard testimony from Louis Einstein on the assessment on lots 1, 2, 3 and 4, block 61, this city, and reduced the assessment by the sum of $725. Louis Gundelfinger was before the board, and gave evidence regarding the fixtures in the store of Einstein & Co. There was no reduction in the assessment.

A Subject for Sunday Consideration

When you are praying for Divine power to inspire your soul with grace and teach you the path of righteousness, ask Him to decide for you whether it is right, just and Christian like, or not, to employ Chinese slave labor to pick your grapes when there are thousands of people of your own flesh and blood suffering from hunger who are just as deserving of the right to exist as you yourself. If you are in need of more evidence call and examine the hundreds of letters received by Howard A. Harris, Fowler, who is in a position to furnish you the best of white labor.*

Easton Packing Company.

At a meeting of the Easton Packing Co., held at their office August 16, 1894, it was decided that the packing house will be open for the purpose of packing raisins the coming season as soon as raisins are ready to pack. The books of the company are now open for subscribers to the capital stock, and a meeting of the stockholders is called for Saturday, August 25, 1894, at 3 o'clock p.m., to complete all necessary arrangements for the coming pack, and other important business. THE MONTEREY ROAD.

COLONEL JONES TALKS OF ITS PROGRESS.

Eight Miles Graded—Business Trip to New York and Its Object.

Colonel A. W. Jones, president of the Monterey and Fresno railroad, passed through Fresno on the 5:20 train last night on his way to New York. He was joined here by L. W. Moultrie, the secretary of the road.

Colonel Jones was met at the train by Thomas E. Hughes, O. J. Woodward, C. L. Walter and a number of other prominent citizens. They all had words of encouragement for the Colonel and told him the cry was for the Monterey and Fresno road. Mr. Jones told them they would soon have their wishes fulfilled.

Mr. Jones stated that he and Mr. Moultrie go to New York to close the negotiations of the loan on the bond issue and also to attend to other matters pertaining to the road. Regarding the progress which is being made, he said that about eight miles was now ready for track laying, which would begin in a few days. He said they hoped to reach the Salinas river by the first of next month. At present there is a force of about 350 men and about 175 teams at work preparing the road bed.

The only disappointment they had met so far was on the pier. The contractor who was awarded the contract, represented to the officials that he had a quantity of lumber and piles in San Francisco with which he would immediately start work. But it turned out that his lumber and piles were on the way from Puget sound and have not yet arrived. He said, however, that they would arrive in a few days and work would be begun by September 1st.

Mr. Jones remarked that he had had occasion to go to Fourth and Townsend on business connected with the road and he remarked that he had been cordially received.

In the present route outlined they will be compelled to cross the Southern Pacific several times, and Mr. Jones went before Mr. Towne and Mr. Huntington, and, laying his maps before them, explained where he wanted to cross, and the permission was granted.

Colonel Jones said that nothing could now stop the road. The people along the line were all anxiously awaiting its completion, and he assured them all that it would be completed by the time set. He stated that he did not think he would stay in New York over a week.

DEATH OF CHLOE BRADWAY

Ends Her Days in a San Francisco Hospital.

The People of Fresno county will not be surprised to learn that Chloe Bradway is dead. The end was scarcely expected so soon, but there never was any question but that the life she was leading would lead to an early death. The old truth is illustrated that the way of the transgressor is hard, and that the wages of sin is death.

Her brother-in-law in Sanger received a telegram that she died Tuesday last, in the county hospital in San Francisco, and instructions were asked as to the wishes of the family concerning her funeral. Instructions were sent to bury her in the county cemetery in San Francisco.

Chloe Bradway was 15 years old at the time of her death. She was born in Mendocino county, and when she was a child the family moved to Fancher creek, and there she lived, between elopements till 14, and then moved with the family to Centerville, where her parents afterwards died. She had many elopements. The family tried to reclaim her, and often she would promise to reform, but her good intentions never availed much. She eloped nine times in all, and was twice married, the last time to Thomas Day, who tried to make a pleasant home for her; but she left him, and the end came in the hospital, as already stated.

THE GROWER'S MISTAKE.

A Duty Which They All Owe to the Combine.

EDITOR REPUBLICAN:—Many growers think by signing the combine that they have done their whole duty in regard to the raisin industry in this valley. Signing the combine is a step in the right direction, and you will receive your certificate of stock in the combine from the secretary. But you are obligated and expected to put your raisins into the hands of the packers, who belong to this combine. If you have not contracted to let one of these packing firms in the combine do your packing you have made a mistake that you ought to correct as soon as possible, by contracting with one of these firms. If 80 per cent of the pack is not in the hands of the packers of this combine by the 1st of September the combine fails. If the growers stand back now and say as some do, "I want to see what the combine is going to do," they will see it burst all to pieces, and ruin, irretrievable ruin, will be upon us, such as we never experienced before. Now, fellow growers, to avoid this calamity, go immediately and contract your crop with some packing firm of the combine.

The Gray-Verdenal Engagement.

From the Alameda Argus.

We notice that the society papers, in announcing the engagement of Lee Gray of Fresno to Miss Blanche Verdenal of New York have set the wedding for August of this year. This is an error. It is to take place in December, at the residence of the bride's parents in New York city. Mr. and Mrs J. D. Gray, parents of the groom, and Mr. and Mrs. William Forsyth, brother-in-law and sister of the bride, will go from Fresno to be present at the ceremony. The happy couple, after their marriage, will make a three months' tour of Europe, and returning, will settle in Fresno. The bride is well known as the second daughter of D. F. Verdenal, one of the best known and most popular Californians sojourning in New York, and a journalist and newspaper correspondent of wide fame. Her mother is a writer of successful plays, and a lady of unusual ability in literature and music. Miss Verdenal herself is a highly accomplished young lady, as vivacious and winning as she is handsome. Mr. Gray is the son of a rich Fresno banker, himself engaged in a prosperous business, and a young man of excellent reputation and good prospects. He met his bride-to-be while she was on a visit to her sister, Mrs. Forsyth, at Fresno, and it was a case of love at first sight.

A Popular Judge.

From the Sanger Herald.

J. R. Webb, judge of the superior court, was in Sanger on Thursday making the acquaintance of our citizens. Judging from the greetings extended to him on every hand, it appears that he has hosts of friends here who will work zealously for his re-election this fall. He has certainly been fair and impartial in his rulings and decisions while on the bench, and there can be no opposition to him on that account.

The young ladies of Fresno are said to have most delightful times on Pine Ridge riding on top of wagon loads of logs drawn by ox teams through dust that rises in clouds.

Mrs. M. C. Saunders, mother of W. E. and Lizzie Saunders, formerly of Fresno, fell last week at her home in San Francisco, breaking her shoulder blade, also breaking her thigh.

There were three pistol shots heard on the streets about 10 o'clock last night. The only information obtainable on the subject was that a wagon load of hay riders were enjoying themselves.

A. J. Cordoza, a saloon-keeper, yesterday pleaded not guilty before Judge Crichton on a charge of disturbing the peace, and his hearing was set for 10 a. m., August 20th. The complaint was made by Mrs. Agnes O'Connor.

The total assessment of the state of California this year is $1,117,679,871. This is a decrease of $51,000,000 since last year. Ten counties increased their assessments. Among those showing increase were Madera and Kings.

On August 3, 1894, in Ashwood, Tennessee, occurred the death of Mrs. Josephine Davidson, wife of Dr. D. H. Davidson, and mother of Dr. J. D. Davidson of Fresno, and Mrs. Samuel Prickett of Nashville, Tennessee, and of W. O. Davidson of Memphis, Tennessee.

There is one advantage in the summer tourists going to Pine Ridge instead of to the seaside. They don't need to spend so much money, and what they do spend goes to the people of this county instead of away off where very little of it will ever get back.

Olin Welbourn is in this city. He was the Democratic nominee for congress in this district against Bowers two years ago, and is remembered here on account of his speech in the courthouse park wherein he said that he hated the very name of protection, but was willing to protect raisins because they are luxuries.

A WORD TO GROWERS.

What They Should Do to Be Saved.

EDITOR REPUBLICAN: — All that is necessary for the grower to do to make the present raisin combine stick is to take one share of stock in the state of California Raisin Growers' and Packers' Company, and do it quickly. When 80 per cent of the crop is actually subscribed the packers are bound by checks to maintain prices, f.o.b. sales, etc. If by September 1st the required 80 per cent is not in, there will be no combine.

Merely putting your raisins with a packer in the combine does not meet the requirements. You must get in yourself. The letter of Director Ghent in the Expositor may be misleading. You must join the association or the association goes up. W. F. ROWELL.

The Sequoia Mill Men.

From the Sanger Herald.

On Saturday last the Sequoia mills closed down for the season. Between 200 and 300 men were discharged and came to Sanger to settle with the company and get their pay. They were given checks on Fresno banks and went there to get the paper cashed. It is certainly unfortunate for the welfare of our town that we have no local bank to cash the company's checks and give the men from the saw mills an opportunity to spend at least a portion of their earnings in this place. Most of the men came down the flume on rafts as far as Hazelton's ranch, ten miles east of Sanger, and walked the remainder of the distance into town. One night this week fifty or more mill men took possession of the depot waiting room at night, spread their blankets on the floor and occupied the place for a sleeping apartment. Very few of the men will remain here. It is supposed that the light demand for lumber and the difficulty of raising funds to pay laborers induced the company to stop the mills sooner than they wanted to.

FOR GOOD HEALTH.

Suggestions as to the Uses and Luxury of the Daily Baths in Summer Weather.

Every 24 hours the human body loses an amount of heat by radiation from the surface during perspiration. But, contrary to what might seem probable at first thought, this loss is oftener advantageous than otherwise.

In this way an escape pipe, so to speak, is provided for the human mechanism, and just as the escape pipe of a steam engine is self regulating, so fortunately the radiation of the heat from the surface of the body is under the control of the nervous system.

When the fact is made apparent to the nerve centers that the temperature of the body is getting too high, notice is immediately sent along the nerves to open wider the blood vessels at the surface of the body, with the result that the blood flows nearer the surface, the sweat glands are stimulated to increased action, more water is excreted by them, and with the water goes off the heat.

Since it is by this means largely that the superfluous heat of the body in health as well as in disease is got rid of, it is clearly very important, especially at this time of the year, that the pores of the skin should never be allowed to become clogged.

With the increased amount of dust in the atmosphere and its natural propensity for adhering to the perspiring body the daily bath becomes more of a necessity during the summer months than at any other time of the year. One should take great care, however, that the bodily temperature is reduced as nearly as possible to normal before the bath is taken. If the temperature be somewhat high and the body perspiring freely, the danger of taking cold will be increased by reason of the sudden congestion of the blood in the dilated vessels at the surface of the body.

Much of the advantage to be derived from sea bathing will be lost unless the crusts of salt that form in the pores of the skin on the evaporation of the water are removed by subsequent brisk toweling or fresh water sponging.

Not only is the perspiration an efficient means of removing superfluous heat, but by this same channel go out many of the waste products of the body. These waste products are always relatively increased in the summer months, and so it is doubly important that during this trying season we should keep the skin in a healthy and cleanly condition.—Youth's Companion.

Porterville Wants a Railroad.

On Monday evening the people of Porterville will hold a meeting to discuss its railroad prospects. It is not clearly stated just what it wants; but the idea is to get an outlet some way, and the plan which seems most in favor is to build a line west to intercept some road which is about to be built from Bakersfield to tidewater. The franchise has already been granted from Porterville to the Kings county line for the proposed road westward.
